

Hay-Adams Hotel Renovation & Rooftop

J.E. Richards Electric, Inc. performed a complete renovation of this historic hotel. In 2001, the hotel closed its doors for a major renovation and in the spring of 2002, the Hay-Adams Hotel re-emerged. The hotel was stunningly restored with its unique ambiance enhanced, and distinctive luxury features orchestrated by widely acclaimed Washington designer, Thomas Pheasant.

Later in December 2010, Richards was contracted to complete a rooftop addition.
